DMC-310 black

Cutie Marks and the Elements of Harmony that they represent - a great and symbolic way to remember the important values of friendship!

Thank you for choosing Stichadee designs! We hope that you have great fun and perhaps a chuckle or two as you stitch away.

Pro Tips:

- Don't know how to cross-stitch but want to learn? While it's sometimes easiest to learn from a family member or friend, there are a TON of resources out there to help you along your way! If you do well with printed instructions, check out your local library before hitting up Amazon - they often have plenty of cross stitch books with great instructions. Visual or auditory learner? There are oodles of websites with great pictures and loads of YouTube videos to help you along the way.
- This pattern involves some backstitching. No biggie!
<http://crossstitch.about.com/od/outlineorbackstitch/ss/bsxsone.htm>
- I always work one color at a time and start by doing one "leg" of each cross-stitch, always going in the same direction, for example, coming up through the bottom left hole and going back down through the top right hole. After completing these first "legs" and establishing your pattern in one color, go back and finish the crosses. This makes it look nice!
- After spending so much time stitching, make sure you give your project the proper TLC it deserves before framing it. Iron the "wrong side" of the pattern, using a few sprays of water if you need to get out stubborn wrinkles before framing.
- Play around with the pattern! Change the colors to your liking....sub in another element....go crazy! Please just remember that Stichadee Design patterns are for personal use only :)

Thank you so much for purchasing this pattern, and please check back for new designs at our shop - stichadeedesigns.etsy.com
Keep on stitchin'!
